Personal Profile

Working towards a job in security through the SMT Training. Currently looking for security work as I have a SIA license and a drivers license. No car currently but will be saving up to acquire one to make work options more available. Preferably night shifts are preferred as I am a night owl person.

Familiar Skillset

Checking the work environment for hazards and making them secure. Checking entry points to the facilities. Watching out for any odd behaviour and any new faces on the premises. Always on alert always expecting the unexpected.

Work History

Sony, **Operator** – August 2017 to May 2020.
Full-time placement. During my time working here, I've done a multitude of physical tasks as testing products, moving and preparing stock for shipments. Other tasks involve maintaining machinery and keeping the work environment safe and productive.

Rubicon, **Door Supervisor** – April 2017 to August 2017
Part-time placement. Worked as festival security ensuring the clients and event organiser were all safe and events went according to plan.

Landauer Games, **Developer** – September 2015 to September 2018.
Part-time volunteer position. My job entitles creating additional content for their products by using any creative method. My aliases is Pixel at www.starsonata.com.
